Genetec Intelligent Keys (Medeco XT) & Key Cabinet Management Plugins

Engineering & Licensing Reference Guide — Medeco XT 3.1.1, ASSA ABLOY CLIQ, Morse Watchmans KeyWatcher, Traka & Deister proxSafe

1. Licensing & Part Number Structure

Genetec Security Center integrates electronic intelligent keys/cylinders (Medeco XT and ASSA ABLOY CLIQ) and automated key cabinets (Morse Watchmans, Traka, Deister, Key Systems) directly into Synergis cardholder workflows.

Genetec Part Number	Plugin / Component	MSRP (USD)	Connection Rule & Prerequisites
GSC-1PMEDECOBASE	Medeco XT Base Plugin 3.1.1	,000.00	1 Base license required per Security Center system when Medeco XT intelligent keys are deployed. Requires Pro or Enterprise.
GSC-1P-OFFLINELOCK-1L	Offline Intelligent Lock / Cylinder	.00	1 license per Medeco XT (or CLIQ) intelligent cylinder/lock added to the system. Requires GSC-1PMEDECOBASE.
GSC-1P-KEYCABINETBASE	Key & Asset Cabinet Base	,500.00	1 Base license per Security Center system when managing Morse Watchmans, Traka, Deister, or SAM key cabinets.
GSC-1PKEYWATCHER / 1PTRAKA / 1PProxSafeKey	Key Cabinet Connection	.00	1 license per physical key cabinet (Morse Watchmans TrueTouch, Traka Touch, Deister proxSafe, or Key Systems SAM). Requires GSC-1P-KEYCABINETBASE.

2. Supported Hardware & Server Sizing

Medeco XT 3.1.1 supports Medeco XT Slim Line keys (G2/G3S/G4), Rugged/Industrial keys, USB desktop programming stations, and IPD network programming stations.

Server Resource Impact: Each Key/Lock plugin role adds +2 GB RAM and +1 CPU core on the hosting Directory or Expansion server.
