Streamvault SVR-101A

All-in-one Vehicle Monitoring appliance

Designed and ruggedized for vehicular operation, the Streamvault™ SVR-101A is the ideal in-vehicle appliance to collect and record vehicle data, such as onboard video and GPS location. Monitor the vehicles in your fleet with an in-vehicle appliance equipped with a wide variety of I/O ports. The SVR-101A supports up to 8 terabytes (TB) of storage. Available with preloaded Security Center Vehicle Monitoring software, the SVR-101A simplifies your deployment of Security Center Fleet Monitoring solutions.

Guaranteed performance › up to **8 TB** storage

Key Features

- Turnkey appliance with Genetec™ Security Center pre-installed
- Available as part of Security Center Vehicle Monitoring solutions
- Onboard recording of vehicle video and sensor data
- 3-year hardware warranty with 3-year advance replacement
- Wi-Fi, GPS, Anti-Vibe kits, and more

Benefits

Fully Unified – The Streamvault SVR-101A unifies data from your onboard devices. It allows you to record and normalize all vehicle data through a single piece of hardware that links back to your unified landside system.

Protect your security system – Streamvault appliances help you build a resilient security system that protects your data and operations. Our cybersecurity experts stay vigilant on evolving threats and help identify and address new vulnerabilities promptly.

Simplified deployment – Create a hub for all in-vehicle sensors in an open architecture fleet monitoring system, and eliminate the need for proprietary hardware systems that don't interact together.

Applications

Transit

Whether you have a bus fleet, a train fleet, or both, the SVR-101A is the ideal in-vehicle server to collect all the vehicle data from your fleet.

Traffic

Keep track of your service vehicles throughout your area of operation to make sure that your vehicular resources deploy where your traffic system needs it most.

Transportation and logistics

Use the SVR-101A to monitor the status of your vehicle fleet and help your maintenance staff prioritize repairs to keep your fleet in movement and productive.

Technical specifications

OS
Windows 10 IoT

Processor
7th/6th gen Intel® Core™ i5, 35W

Memory
16GB DDR4

Ethernet
2x RJ-45 10/100/1000 Mbps Ethernet

Peripherals
4x USB 3.0
1x DB9 Serial console
1x DB9 8-bit programmable DIO
4x Antenna opening*
* Wi-Fi and GPS modules sold separately

Display
1x HDMI 1.4b

Cybersecurity

Endpoint protection
Arctic Wolf Aurora Protect machine learning antivirus

Mechanical and environmental

Power supply
9-36v Terminal block
12/24v Terminal block with Smart Ignition

Operating Temperature
-40°F to 140°F (-40°C to 60° C)

Operating humidity
0 - 95% (non-condensing)

Dimensions
7.09” x 5.91” x 2.56”
(185mm x 150mm x 65mm)

Max Weight
3.77 lb (1.71 kg)

Vibration endurance
Grms w/SSD (5 to 500Hz, X/Y/Z direction; random, operating)
MIL-STD-810G, Method 514.6C-VI Category 4 compliant

Certifications
CE Class A, FCC Class A, ISO 7637-2

Storage

Drive bays
1x 9.5mm 2.5” SATA drive
1x full-sized mSATA
1x half-sized mSATA

Storage
SVR-101A-2T-2S-I5: 2 TB (raw); 1.92 TB (usable) High-End SSD
SVR-101A-4T-4S-I5: 4 TB (raw); 3.84 TB (usable) High-End SSD
SVR-101A-8T-8S-I5: 8 TB (raw); 7.68 TB (usable) High-End SSD

Warranty

Hardware
3-year warranty with 3-year advanced replacement

Software
3-year Genetec Advantage included for base models;
5-year Genetec Advantage included for SKUs ending in 5Y

Additional features

Wi-Fi, GPS, and Anti-Vibe kits
