Streamvault SVR-101AR

All-in-one Vehicle Monitoring appliance

Designed and ruggedized for vehicular operation, the Streamvault™ SVR-101AR is the ideal in-vehicle appliance to collect and record vehicle data, such as onboard video and GPS location. Monitor the vehicles in your fleet with an in-vehicle appliance equipped with a wide variety of I/O ports. Available with preloaded Security Center Vehicle Monitoring software, the SVR-101AR simplifies your deployment of Security Center Fleet Monitoring solutions.

Key Features

- Rail certifed
- Turnkey appliance with Genetec™ Security Center pre-installed
- Available as part of Security Center Vehicle Monitoring solutions
- Onboard recording of vehicle video and sensor data
- 3-year hardware warranty with 3-year advance replacement
- Comes with Wi-Fi, GPS, Anti-Vibe kits and more

Guaranteed performance

› up to **16TB** storage

Benefits

Fully Unified – The SVR-101AR unifies data from your onboard devices. It allows you to record and normalize all vehicle data through a single piece of hardware that links back to your unified landside system.

Protect your security system – Streamvault appliances help you build a resilient security system that protects your data and operations. Our cybersecurity experts stay vigilant on evolving threats and help identify and address new vulnerabilities promptly.

Simplified deployment – Create a hub for all in-vehicle sensors in an open architecture fleet monitoring system, and eliminate the need for proprietary hardware systems that don't interact.

Applications

Transit

Whether you have a bus fleet, a train fleet, or both, the SVR-101AR is the ideal in-vehicle server to collect all the vehicle data from your fleet.

Traffic

Keep track of your service vehicles throughout your area of operation to make sure that your vehicular resources deploy where your traffic system needs it most.

Transportation and logistics

Use the SVR-101AR on your vehicle fleet to monitor their status and help your maintenance staff prioritize repairs, to keep your fleet in movement and productive.

Technical Specifications

OS
Windows 11 LTSC

Processor
Intel® Core™ i5 or i7 13/14th gen processor 35W TDP

Memory
16GB DDR5

Ethernet
1x 2.5GbE RJ45
2x 2.5GbE M12 (X-Code)

Peripherals
2x USB 3.2 Type-A
1x Terminal block isolated 6-in/2-out Isolated DIO (isolation voltage: 5 kV)

Display
1x HDMI

Cybersecurity

Endpoint protection
Arctic Wolf Aurora Protect machine learning antivirus

Mechanical and environmental

Power supply
Full range 24-110 VDC power input with Smart Ignition Management

Operating Temperature
Storage drive: 32°F to 158°F (0°C to 70° C)
OS Drive:-40°F to 185°F (-40°C to 85° C)

Operating humidity
0 - 95% (non-condensing)

Dimensions
9.45” x 7.17” x 2.8”
(240mm x 182mm x 71mm)

Max Weight
8.2 lbs (3.7 kg)

Shock endurance
EN (IEC) 61373 category 1 class B (5G, half-sine pulse, 30ms duration)

Vibration endurance
EN (IEC) 61373:2010 category 1 class b (3 Grms with SSD, random 5 to 500 Hz, 1hr/axis)

Certifications
CE, FCC, LVD, EN 50155:2021(EN 50121-3-2, EN(IEC) 61373), EN 45545-2:2020

Storage

Drive bays
2x 2.5” SATA Drive Bays

OS Drive
1x PCIe Gen 4×4 m.2 2280 NVME SSD

Storage
Up to 16TB SSD

Warranty

Hardware
3-year warranty with 3-year advance replacement

Software
3-year Genetec Advantage available with vehicle bundles

Additional features

Wi-Fi, GPS, Accelerometer, TPM 2.0 and Anti-Vibe kits
