Eaton Environmental Monitoring Probe (EMP Gen 2)

SKU: EMPDT1H1C2
Magnetic Rack Mount / Wall

Environmental monitoring probe for Eaton Network-M2 card. Accurately measures ambient rack temperature (-10°C to 70°C) and relative humidity (10% to 90%). Includes 2 dry contact closures for monitoring rack door open/closed magnetic reed switches or water leak sensors.

Electrical Specifications & Power Distribution

Temperature Range	-10°C to 70°C (14°F to 158°F) ±0.5°C	**Humidity Range**	10% to 90% RH ±2%
Digital Inputs	2x Dry contact inputs for door/leak sensors	**Power Supply**	Bus powered via RJ45 from Network-M2 card
Daisy-Chaining	Daisy-chain up to 3 probes per Network-M2	**Max Distance**	Up to 50 meters (164 ft) via Cat5e cable
Alarm Thresholds	User-configurable high/low temp & humidity traps	**Data Logging**	Historical graphing in IPM and Network-M2

Physical Dimensions, Mounting & Compliance

Mounting Options	Magnetic mount, screw mount, or cable tie	**Dimensions (H x W x D)**	1.1" (28mm) x 2.2" (57mm) x 3.2" (81mm)
Net Weight	0.2 lbs (0.1 kg)	**Cable Included**	1x RJ45 to RJ45 communication cable (1m)
Certifications	CE, FCC Class B, RoHS	**Warranty**	2-Year Limited Warranty
